PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience in Spring Boot, React.js, MySQL, and REST API development through TAP Academy and an Applied AI internship with IBM SkillsBuild. Proficient in building and deploying full-stack web applications with Oracle Generative AI Professional certification. Seeking an entry-level Java Full Stack role to contribute to backend and frontend development in a production environment.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, SQL, HTML5, CSS3
Backend: Spring Boot, Spring MVC, REST APIs, Maven, Hibernate (JPA), JDBC, JSP, Servlets
Frontend: React.js, JavaScript (ES6+), HTML5, CSS3
Databases: MySQL, PostgreSQL, MongoDB, Supabase
Tools & DevOps: Git, GitHub, Docker, Postman, Render, Vercel, Jupyter Notebook
Concepts: OOP, Singleton Design Pattern, MVC Architecture, CRUD, REST API Integration, Cloud Deployment

EXPERIENCE

Applied AI Intern Dec 2025 – Jan 2026
IBM SkillsBuild (via CSRBox) Remote
– Built a Health Service Agent automating patient–doctor appointment scheduling using Python and Relay agents.
– Integrated Google Forms for patient input; implemented slot-matching logic against doctor availability in Excel.
– Deployed on Render and Supabase, reducing manual scheduling effort and improving hospital workflow efficiency.

Java Full Stack Developer Intern Jan 2026 – June 2026
TAP Academy Full Stack Internship with AI Integration
– Developed full-stack applications using Core Java, Spring Boot, and React.js under structured mentorship.
– Built RESTful APIs with Spring MVC and implemented Hibernate ORM for MySQL database operations.
– Designed React.js frontends with reusable components, React Hooks, and REST API integration.
– Applied AI-assisted development workflows using modern tooling alongside Java Full Stack modules.
– **UrbanEats – Food Delivery App** | *Java, JDBC, JSP, Servlets, MySQL*

- Built a multi-user food delivery platform with restaurant listings, dynamic menus, cart, and order history with individual authenticated user accounts.
- Implemented backend using **JDBC** for SQL operations and **JSP with Servlets** for server-side rendering, strengthening core Java web development skills.

PROJECTS

EBS Tracker – Expenses, Budget & Savings | *Spring Boot, Spring MVC, Hibernate (JPA), PostgreSQL, REST APIs, Render*
– Built a personal finance application with expense tracking, budget planning, and savings modules using **Spring Boot** and **Hibernate ORM** for a scalable, production-ready backend with **PostgreSQL**.
– Leveraged the **Singleton design pattern** via Spring's IoC container to ensure a single managed instance per service component, promoting resource efficiency and consistent state.
– Designed and exposed **RESTful APIs via Spring MVC**; deployed live on **Render** – expense-budget-savings-tracker.onrender.com.

Recipe Assistant Web Application | *JavaScript, Spoonacular API, HTML/CSS*
– Integrated Spoonacular API for dynamic meal planning and nutrition insights; built search filters with dynamic UI rendering.

EDUCATION

Basavakalyan Engineering College, VTU Basavakalyan, Karnataka
B.E. in Computer Science and Engineering Expected June 2026

Ram and Raj P.U. College, Humnabad
Pre-University Certificate (2nd PUC – Science) April 2022

Ram and Raj High School, Humnabad
SSLC (10th Standard) April 2020

CERTIFICATIONS

- **Oracle Certified Generative AI Professional** – Oracle MyLearn
- **Generative AI** – Infosys Springboard
